

# BD Module: LX5V-8BX-BD

- 8 entradas analógicas DI

## Specification

Item	LX5V-8BX-BD
	Input
Input circuit composition	<p>NPN Connection: S/S connected to 24V            PNP Connection: S/S connected to 0V            Note: NPN connection is shown in the figure.</p>
Input signal voltage	DC±24V ±10%
Input signal current	5mA/DC24V
Input ON current	Above 3.5 mA
Input OFF current	Below 1.5 mA
Input response time	About 10ms X0-X7 built-in digital filter. Setting range: 0 to 64ms.
Input signal	Contact input, NPN or PNP
Circuit insulation	Digital capacitor isolation insulation
Input action display	When ON is input, the LED is on.
